

March 2018

Rays of Hope

A Blessings Update

...just as Christ was raised from the dead through the glory of the Father, we too may live a new life. (NIV) Romans 6:4

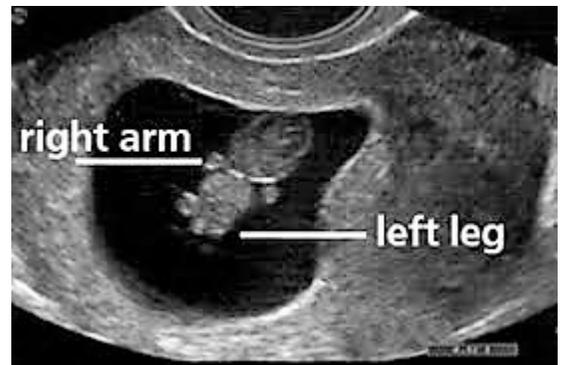

As we prepare to celebrate Christ's Resurrection at Easter, at the PMC we're rejoicing in having the privilege of reaching women with "new life" in two ways!

First, we are able to talk with women gently about the new life within them and second, (as God leads), about the possibility of new life in Christ.

After months of waiting its very exciting to be almost ready to begin doing in-house ultrasound exams. Those pictures will give women the opportunity to see their baby, and usually, his/her heart beating. Please join us in praying that God will cause hope to dawn in the hearts of these women in difficult situations.

Praises:

- For God's working in the life of a woman who considered abortion but decided to parent her child.
- For our 27 volunteers who join us every week as we serve women together!
- For God's provision of the funds for the Hands-on Ultrasound Training for Kathy, our Nurse Manager, and Dr. Durbin, our Medical Director.

Prayers:

For word to spread and for us to schedule 55+ models to volunteer for a free ultrasound test March 26—March 30.

- They need to be between 6 and 20 weeks pregnant and people who are interested should call 801-621-4357 and speak with Nicole to schedule an appointment.
 - For Kathy, Dr. Durbin and Nicki, (the trainer), as they complete 5 long days of training.
 - For 4-8 new people to volunteer as receptions, advocates, and nurses to found out our clinic staffing
- For "Steps for Life" - 66 Ambassador couples and 45 churches who giving out information to encourage people to participate in our "Steps for Life" Fundraiser. Please pray for to be working in the hearts of sponsors to help fund the PMC outreach to women in unexpected pregnancies through "Steps for Life".

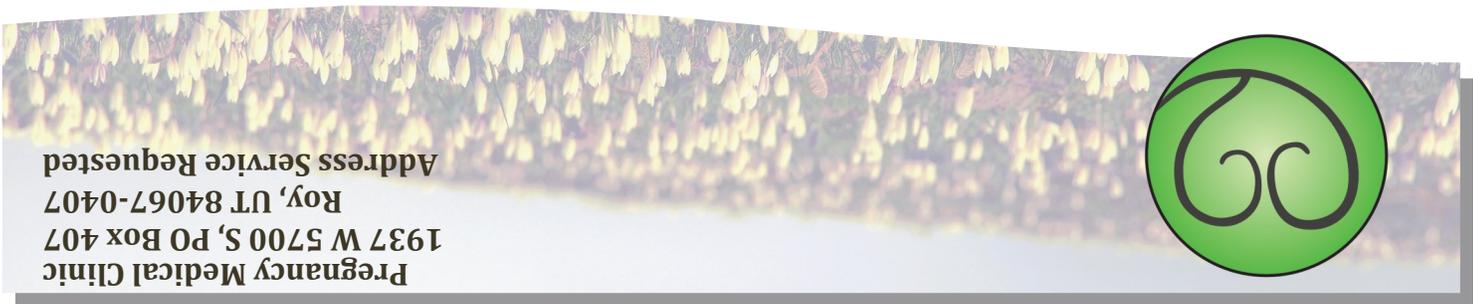

Volunteers Needed: Several volunteers are needed with clerical and/or computer experience (Microsoft, database management, or graphic software) for a variety of projects.

Call Gwen at 801.612.9293 for more information.
