

“Utah needs more places like Journey Clinic. They really helped me make an informed and healthy decision. Everyone was friendly from the first call through the ultrasound exam.”

- Journey Clinic patient (2019)

Be A Shelter

You have been a refuge for the poor, a refuge for the needy in their distress, a shelter from the storm and a shade from the heat.
Isaiah 24:5

Pregnancy Medical Clinic
2019 Annual Report

Your Pregnancy Medical Clinic Ministry Investment

2019 has been an exciting year as we've seen the realization of our medical expansion plans. It's been amazing to see how God has opened doors, supplied resources and brought people like you to partner in the efforts.

The PMC's mission is to support women who are facing or have faced unexpected pregnancies. God has called us to come alongside women with pregnancy testing, options education, nurse consultations, ultrasound exams and advocacy services that may help women find hope in their difficult situations. We appreciate your partnership in gently sharing God's Love and Truth with women who are in difficult circumstances.

Patients Seen at Journey Clinic

(November 2018 - October 2019)

Patient Visits	324
Pregnancy Tests	208
Abortion-At-Risk Patients.....	46
Ultrasound Exams	161

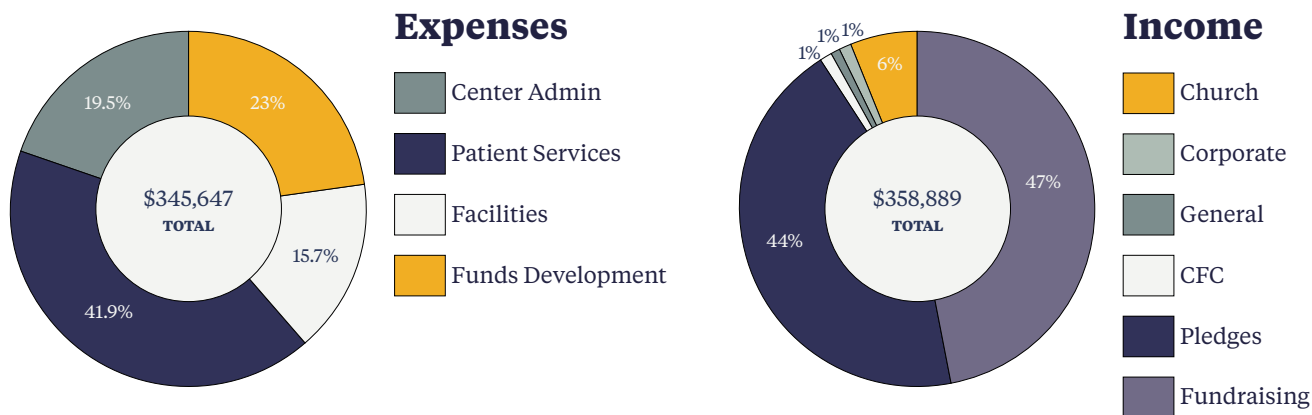

The age of our patients in 2019 ranged from 16 to 43

"I would recommend Journey Clinic because the people here treat you with love, kindness and respect."

Finances

(November 2018 - October 2019)

Because You Gave

2019 Goals Accomplished

- This year God has given us the privilege of serving 49% more women than in 2017 (the year before we expanded services). In addition, our percentage of abortion vulnerable patients has tripled from 2017 to 2019 YTD.
- Kathy (our Nurse Manager) has done over 260 ultrasound exams since May of 2018 and counts it a privilege to help a patient see the first pictures of her baby.
- We have been able to have spiritual conversations with over 90 patients and shared the Gospel 25 times.
- God AMAZED us when He sent us 65 NEW MONTHLY DONORS in October. We now have a total of 311 families/individuals giving each month to help cover the increased costs of medical services.

2020 Vision

- Increase the number of Journey Clinic patients by utilizing word of mouth, additional social service agency contacts and more Google advertising
- Evaluate the cost and feasibility of owning our own building by entering into a "lease-to-own" agreement with our landlord
- Finish raising the \$65K of additional annual expenses for our new medical services and clinic rental. We're praying for 20-25 more monthly financial partners to help cover our additional rental costs
- Recruit 3 receptionists, 3-4 clinic nurses and several administrative volunteers
