

# COVID-19

At Journey Clinic we are committed to protecting our patients, staff and volunteers, and keeping our community safe. Based on the recommendations of the CDC and local health departments, here are the steps Journey Clinic is taking.

## 1 Screening

Within the last 14 days, if you have:

- Fever, coughing, shortness of breath, congestion, sore throat
- Been exposed to someone who have these symptoms
- Been tested positive for COVID-19
- Have traveled outside the country

**Please give us a call to reschedule your appointment.**

We will provide screening over the phone and in person, as well as take the temperature of every person who enters the clinic.

## 2 Disinfecting

- Our clinic space is being thoroughly cleaned on a daily basis
- Our waiting area is sanitized several times a day including all frequently touched items
- Tissues, masks, and hand sanitizers are available throughout the clinic.
- Our licensed healthcare providers may be wearing additional protective wear during your visit.

## 3 Distancing

- We are practicing social distancing and staying at least 6 ft. away from people.
- Maintaining under 10 people in the clinic at any given time. (This includes our staff, volunteers and patients.)
- We are asking all staff who are sick to stay at home.
- We are not shaking hands.
