

RAYS OF HOPE

AUGUST 2023

The Pregnancy Medical Clinic (PMC), through our medical location Journey Clinic, is a Christian ministry that provides life-affirming medical, emotional, social, and spiritual support for women and families in unexpected pregnancies.

OUR EARLY PREGNANCY SERVICES ARE FREE TO PATIENTS

- Pregnancy diagnosis
- Options education
- Nurse consultations
- On-site ultrasound exams
- Referrals for pre-natal care and other practical assistance (We do not suggest or refer for abortion)
- Support and referrals for those seeking healing after a past abortion

We here at the PMC/Journey Clinic have the amazing, God-given privilege of talking with women who are struggling with a decision in an unexpected or unexpectedly difficult pregnancy. **While God's truth offers protective direction for our lives,** society instead tells women to do what's easy, because everyone "makes their own truth."

The lack of direction on this signpost is very much like the lack of caution or direction that today's secular society offers. Instead, **with your prayer partnership,** we at Journey Clinic will continue sharing God's truth about LIFE with each woman who is trying to find her way.

Praises:

- Please praise God with us for Him calling 61 couples/singles to help invite people they know to be guests for "Hope Endures," the PMC's Banquet for Life.
- For God's mighty working through our 10 volunteers who called to help recruit those hosts.

Prayers:

- For the crew as they cover for each other's vacations. Pray for God to "stretch our time" as we're also shorthanded on volunteers right now.
- For God to send us several more receptionists, advocates and nurses. **Our short staffing is keeping us from being able to help some women who need our services.** In addition, our Clinic Director (Debbie) and Nurse Manager (Erin) need to have time to focus on training and managing the clinic, in addition to seeing patients.
- For Tammy as she continues to recover from spinal fusion surgery and does physical therapy.

Thank you again for taking the time to lift up the PMC/Journey Clinic in prayer. Your prayers are changing the lives of moms and their unborn children.
